FIELD DAY A RESOUNDING SUCCESS!

The first annual field day exercise of the N.E.W. Radio League was very well represented.

The final count is not in as of this writing, but it appears to be in the 1800 point range.

Special thanks to WD9EKU for the Satellite station & the expertise that allowed some 45 contacts on oscar 13.

Special thanks also to KX9M & W9LID who worked some 100+ CW contacts under very trying conditions.

All who attended deserve a big pat on the back for a lot of effort & lost sleep in an attempt to keep the radios working for the entire 24 hours. We hope to get a lot more response next year as those who attended this year spread the word of a very good time.

Thanks to C.R.Meyers Co., we had plenty of power available, and didn't even use one of the 4000w generators. It is always nice to have reserve power available.

Again, THANKS to all who participated.

FUND DRIVE AGAIN IN FOREFRONT

Most of us have recieved our packet of information from Todd KE9PW, Chairman of the Controller Fund Drive. It is time now for each of us to use this information to set a personal goal & see how much we can raise for the controller. Remember, Todd has agreed to climb the tower if any one person raises \$1000.00.

More about the Drive at the meeting.

WE ARE NOW AN ARRL AFFILIATED CLUB

As an ARRL affiliate, we are entitled to all of the benifits available from the ARRL.
